Hello Tonya,
Thanks for the information. I have left a message with Mr. Rollins.

Hello Mr. Rollins,
The Coast Guard did report the Storis to GSA as PCB free (see attached definitive statement). At one point the Storis did contain PCBs as indicated in the attached Environmental Assessment. However, the vessel was cleaned of PCBs prior to going into storage.

Sincerely,
Heather

Please call Christopher Rollins with EPA in San Francisco, California at [415 947 4166](tel:4159474166).

Mr. Ottman called him stating that the Storis has PCBs on it and that the vessel is on its way to Mexico. I told Mr. Rollins that this vessel was reported to GSA free of PCB's and you make sure of this prior to the vessel being sold.

Thanking you in advance.
